RespiTrack

Your kid has asthma, and...

*You don’t know if he takes his medicine on time?*
*Not sure when you should refill your kid’s inhaler?*
*Want to keep your kid’s doctor updated at any time?*

Use our RespiTrack kit which includes application, smart watch and smart inhaler to set alarms in your kid’s smart watch, track his usage of the inhaler, get friendly and informative statistics of the medicine intake and deliver a full report to the doctor!
