SmartLend PegBoard

The smart way to lend!

Smartlend Pegboard is a smart lending system for tools with a minimalist user interface
• In a workshop there is a variety of tools that require tracking and making sure that they were returned to place.

Our Smartlend Pegboard features:
• There is no need for check-in checkout process
• The tracking is transparent to the user
• Tools are not locked into place

We provide a friendly detailed UI interface for the admin, showing the users in the system and the items they lent.

Detailed log, provides the admin with the history of each item, it's lent time and the id of the person who lent it.

Team: Layan Jabarin, Teba Suh, Adam Diab
Instructors: Itay Dabran, Tom Sofer, Nadeen Bawardi
