Find, Walk, Connect!

A smart app that connects walkers, tracks activity, and keeps them safe.

Find walking partners based on fitness, goals, and availability.

Track steps, distance, and time effortlessly.

Chat with groups, use polls to plan meetups, and explore routes.

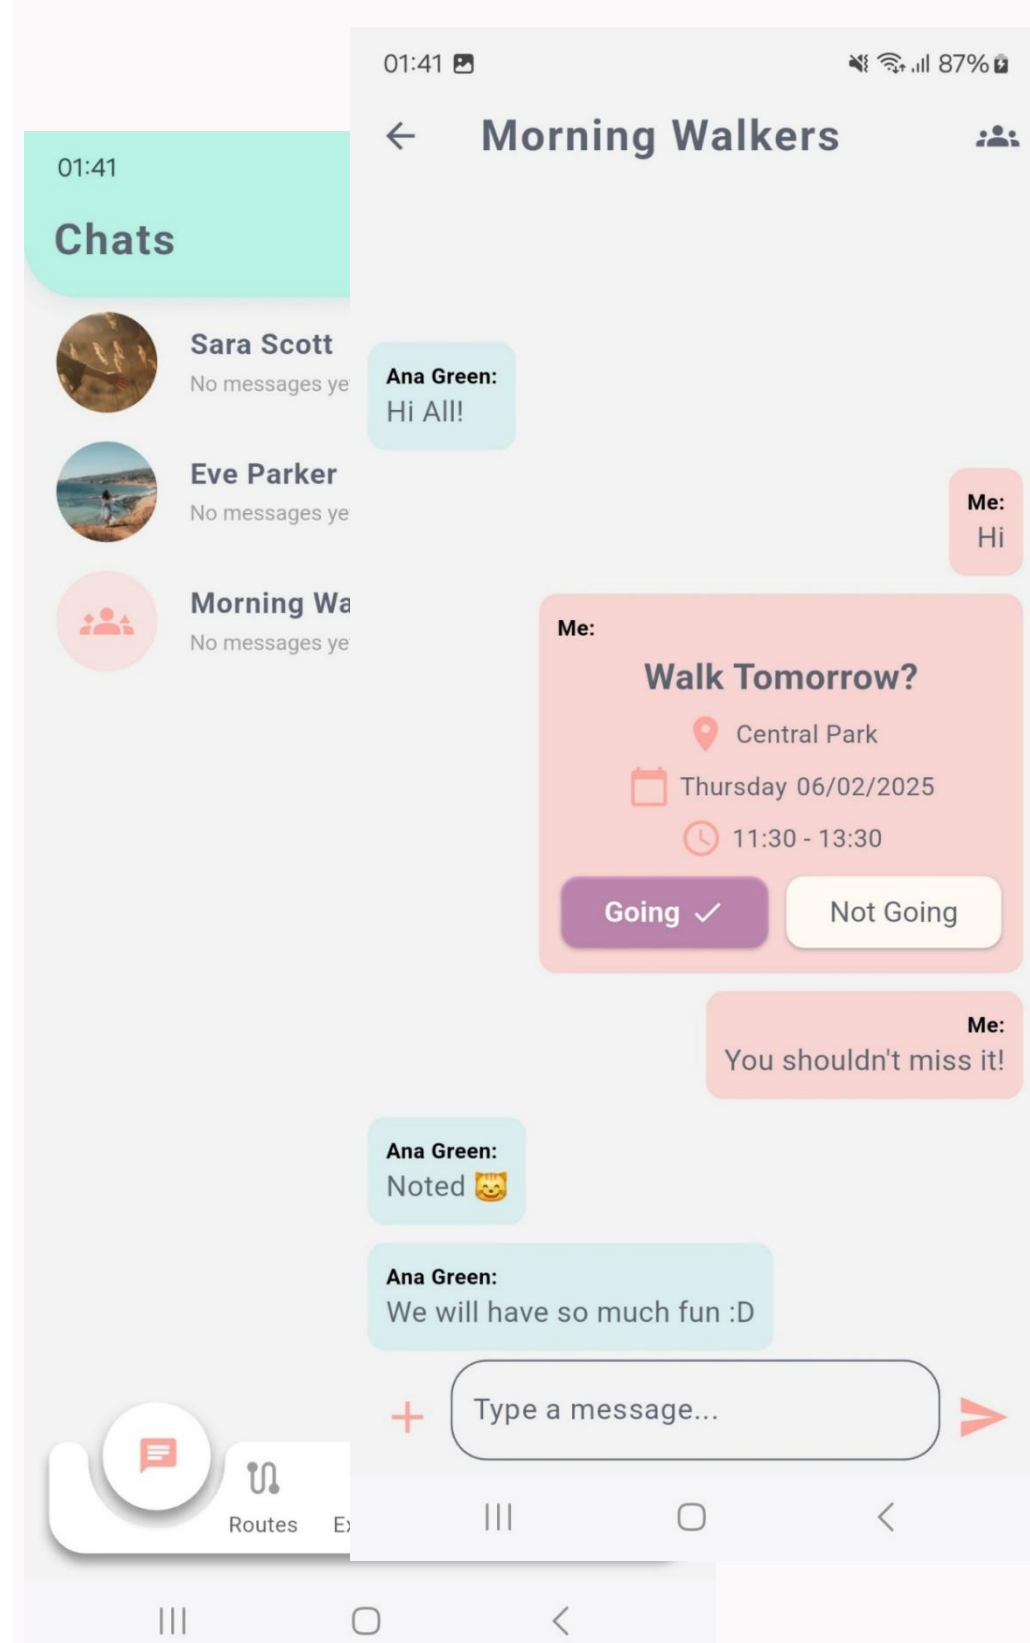

Stay safe and meet new people with live location sharing.

Make walking fun, social, and motivating.

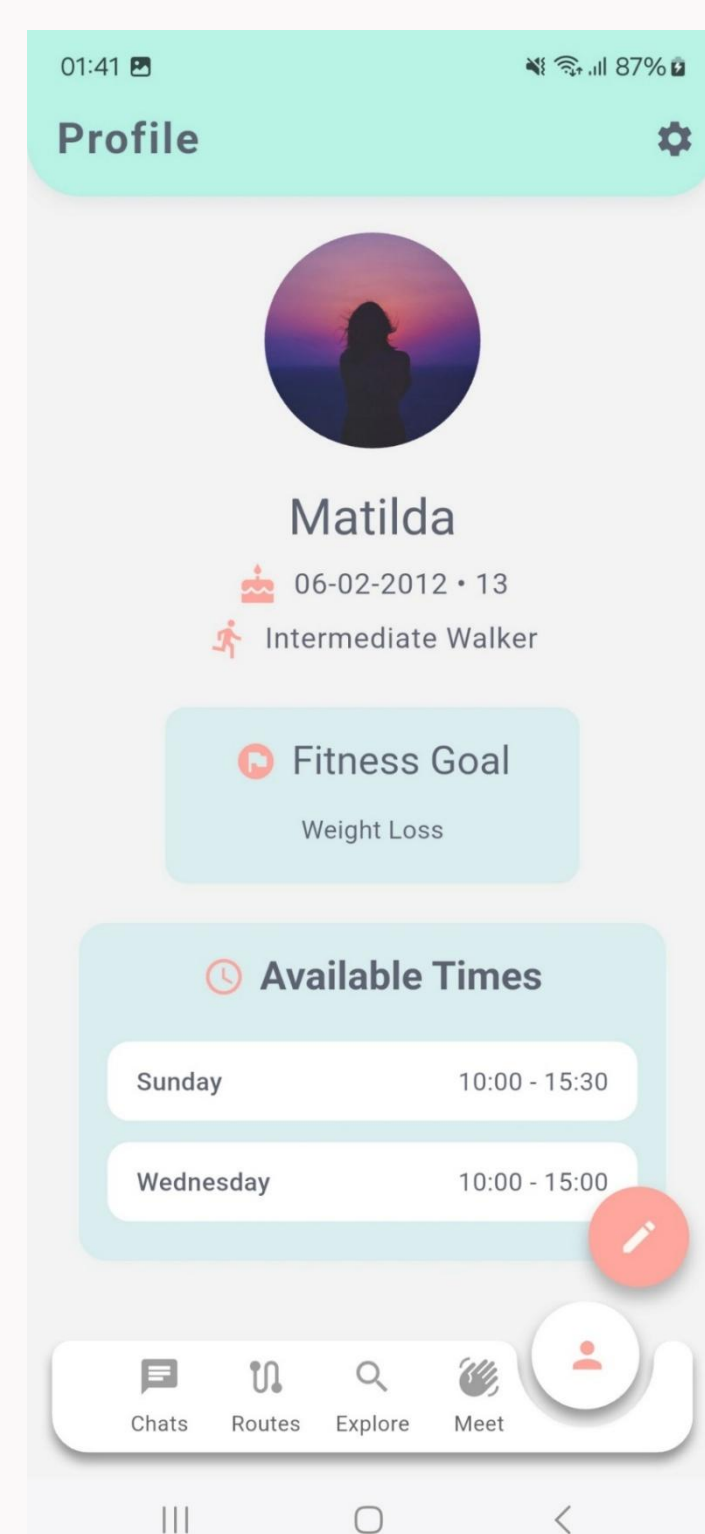

Walk More. Connect More. Stay Motivated.

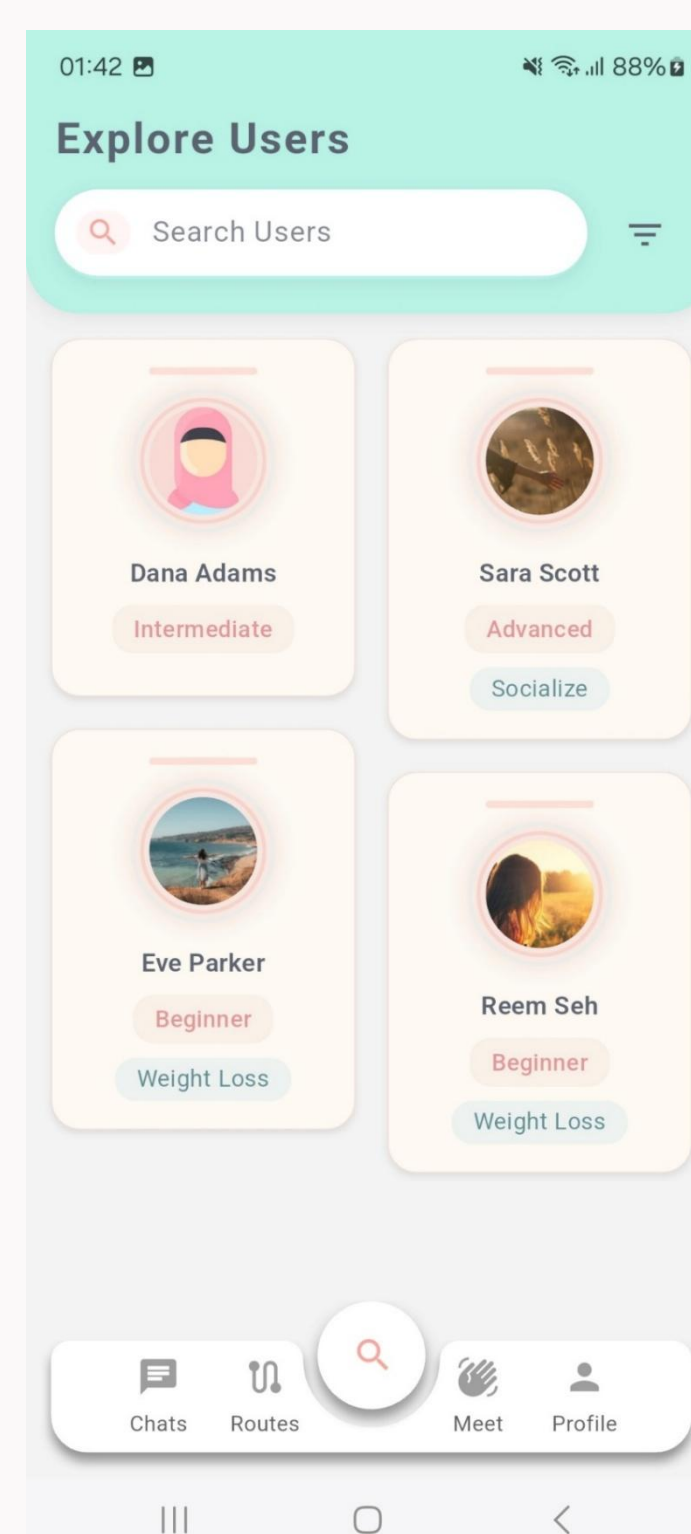

Chats Page:

Contains your chats, groups or private ones. In the chat itself you can send messages and polls for scheduling walking events

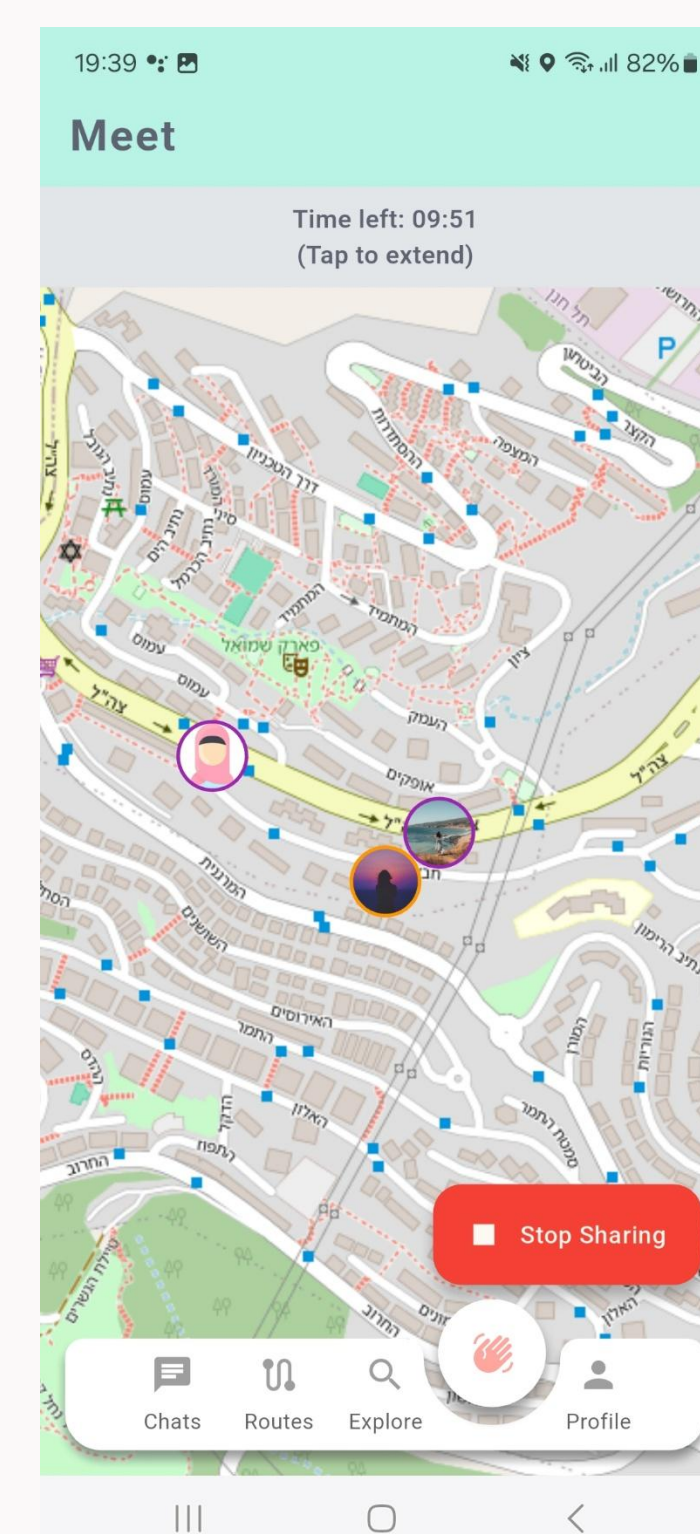

Profile Page:

Has your personal details with the option to edit them and add a profile picture, your available times, or your primary goal.

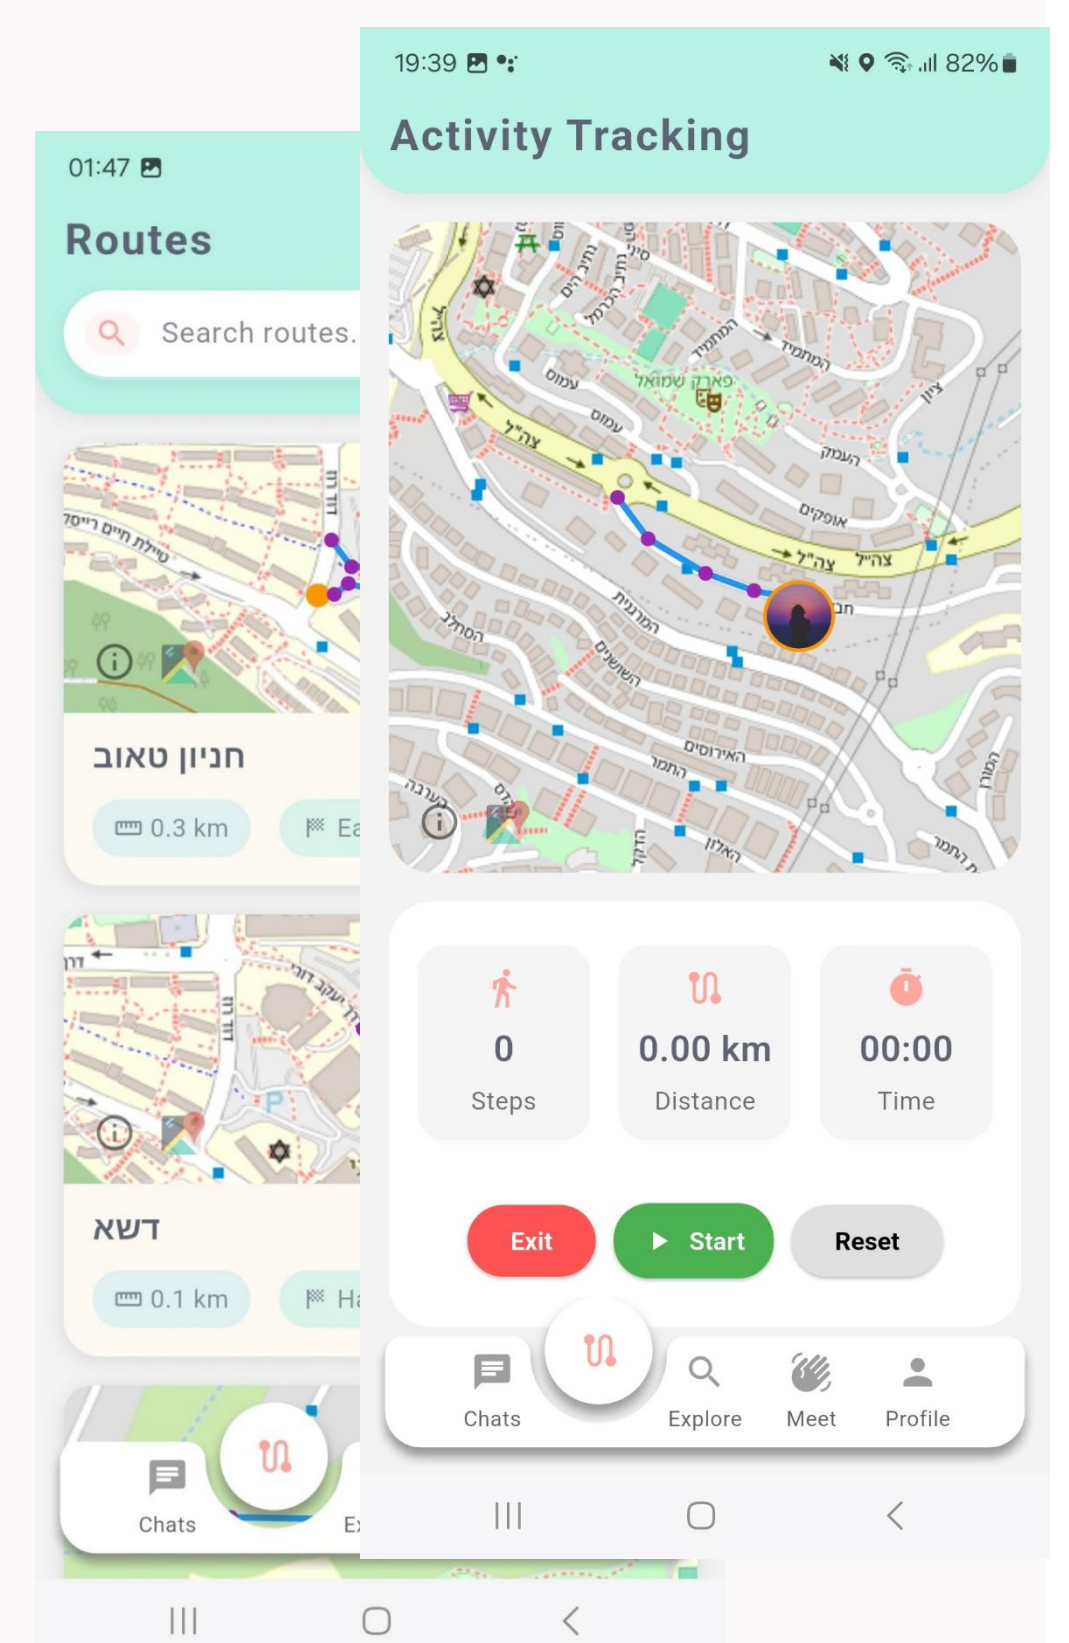

Explore Page:

One place to find them all! You can view all users, filter them to your taste, or search for specific names.

"Meet" Page:

Did you go for a walk alone? Meet helps you find nearby users so you can meet new walking buddies.

Routes Page:

Here you can find all the routes that other users created or create your own. You can also pick a route and start tracking the steps you take, or the distance you cross!
