# Garden Buddy
Gardening that takes care of itself!

Garden Buddy combines IoT-powered sensors with real-time garden monitoring, smart plant irrigation, and a marketplace for exploring smart gardens online, ensuring a seamless gardening experience.
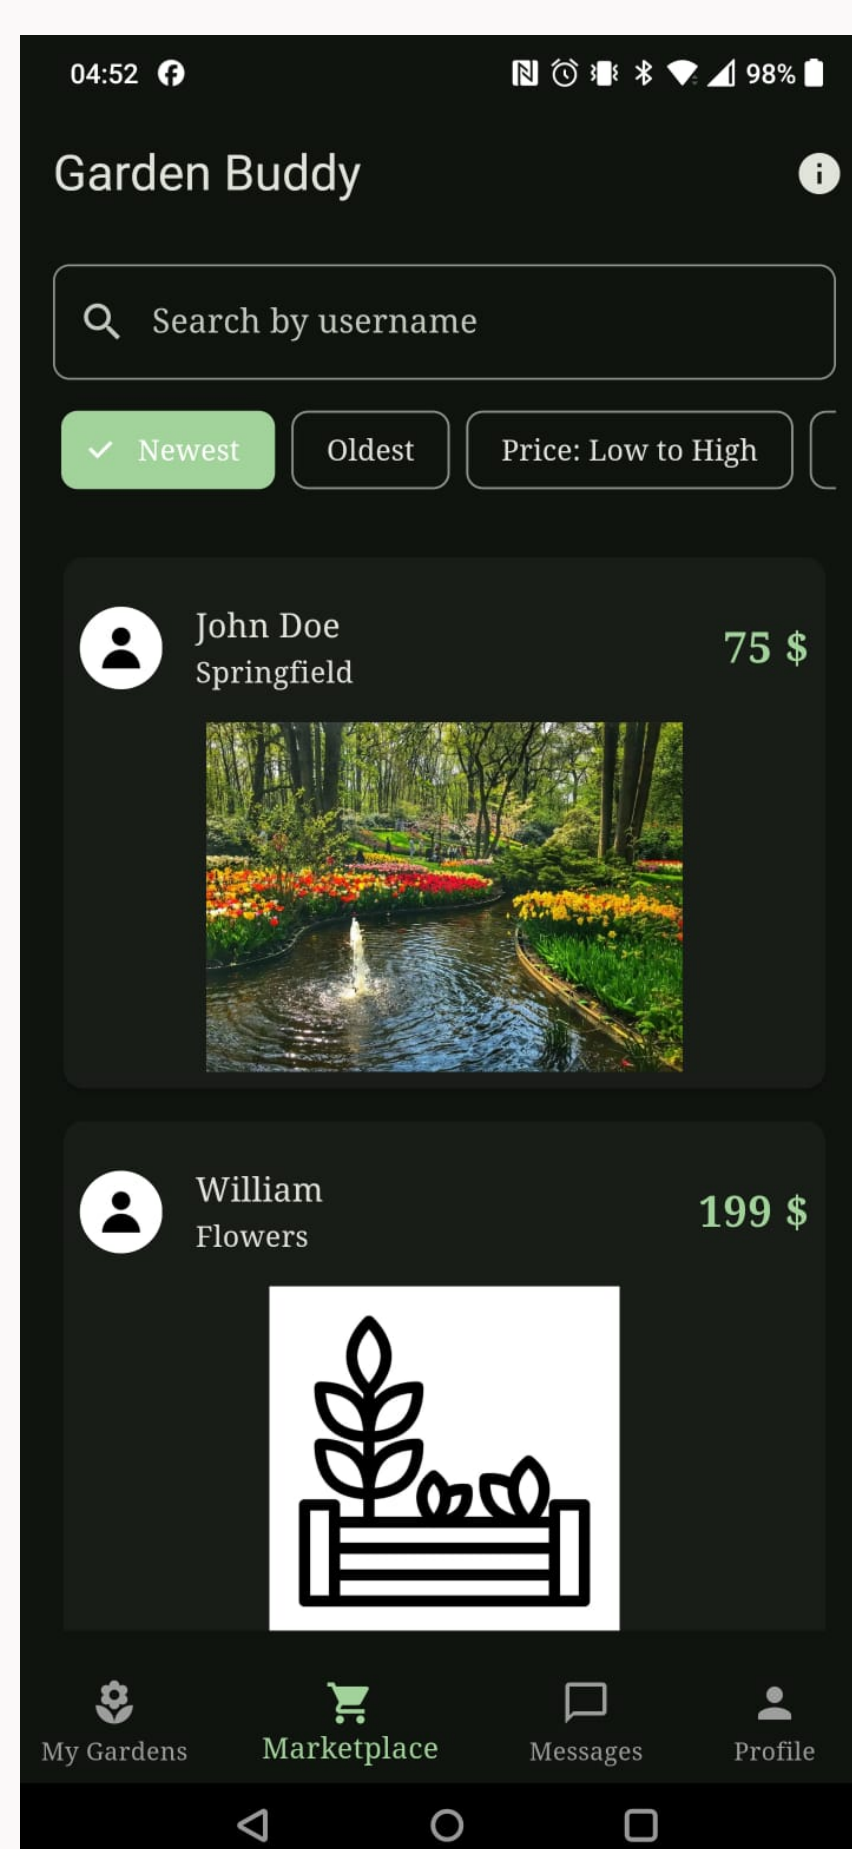

Main Features:

☑**Detailed Garden Statistics** – Provides graphs for soil moisture, temperature, and humidity trends in real-time.

☑**Mobile Notifications & Alerts** – Notifies users about low water levels and garden conditions.

☑**Integrated Marketplace** – Displays smart gardens of other gardeners.
